

In the Specification:

P. 14, paragraph 1:

-- Fig. 11A shows a cross section of a container 700 including sides 702 and 706 and bottom 704 and a cross section of a cover 708. The container 700 and cover 708 may be similar to that shown in Fig. 6. Devices 720 and 722 are also shown in Fig. 11A. The devices 720 and 722 can communicate with each other via wireless channel 710. The device 720 may have the shape of a floppy disc or a PCMCIA card ("PCMCIA" stands for "personal computer modem computer input access" card). Fig. 11A shows the first mode of operation of the device 720. Devices 720 and ~~700~~ 722 each includes a Bluetooth device which is integrated in each of devices 720 and ~~730~~ 722. In the first mode of operation, the device 720 locates device ~~730~~ 722 and performs a key exchange in the secure enclosure of container 700 with cover 708. --
